

## Wow. What a ride!

Did you know that this month we are celebrating 20 amazing years as Evolved Body Art?!

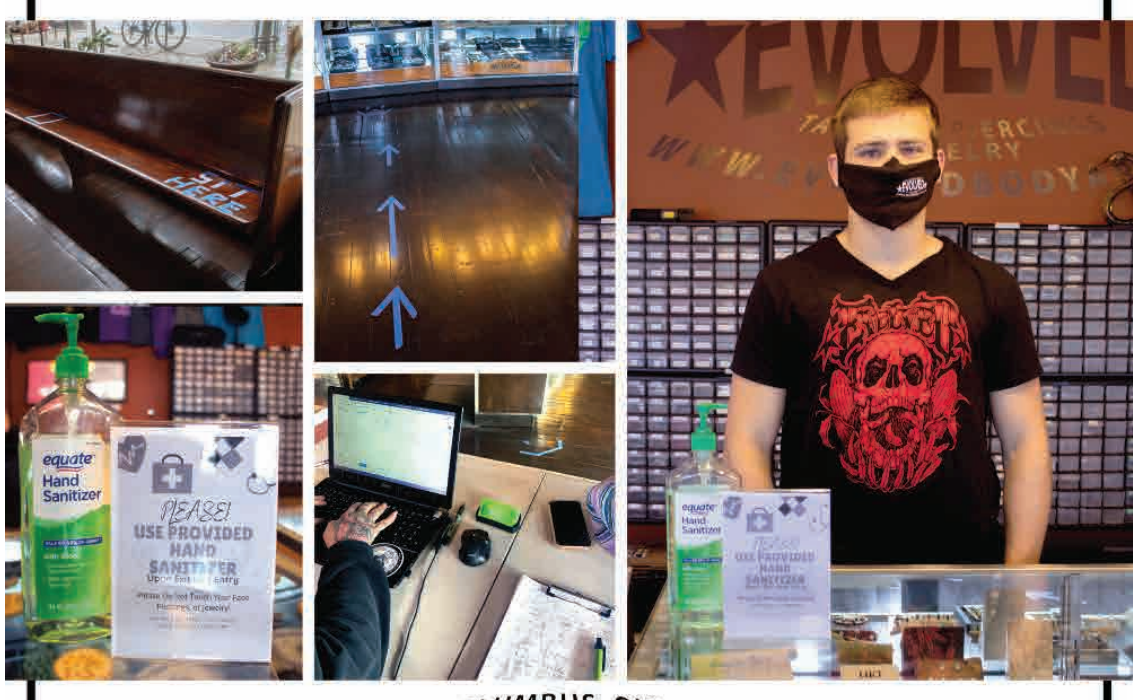

Twenty years ago this month, we humbly followed the footsteps of Lars, Jen, Iggy, Chris and Shea at Viking Studios after they wrapped up over a decade of amazing custom artwork and in-depth focus on body piercing and tattooing. And it is with that same gratitude that we thank each of you today because our clients are the reason we have been able to live our passion for 20 years.

We love each and every one of you.

Thank you. Stay Safe. Stay Healthy. Come see us soooooon!

## Our world has changed and so has Evolved (in the best ways)!

The world around us has changed tremendously in the past 2 months and so have we! In order to keep our clients and employees healthy and happy, we have introduced many new studio-wide protocols.

Here are some of the things we are doing:

- We have temporarily shortened our hours in order to maintain an even higher level of exceptional cleanliness throughout the studio. We are currently open 7 days a week from 12-8 PM.
- We have chosen to open only two of our three studios to ensure that we have the healthiest staff possible and to make sure that no one has to come to work unless they are 100% healthy and comfortable with the studio environment.
- We are following the health guidelines that outline that we will not perform any oral or nasal procedures.
- All of our staff (including those who don't have direct contact with our clients) are required to undergo a daily health assessment which includes taking their temperature.
- We are having daily meetings before we open to perform these health checks and to review our procedures and improve them as needed.
- Every service (tattoos, piercings, jewelry changes/purchases) is required to have an appointment. We are requesting that clients arrive unaccompanied unless they are a minor or have a caregiver.
- We have designated a specific flow of traffic throughout the studio. There are arrows on the floor directing our clients which direction to move and where they should be standing to ensure that everyone is 6 feet apart. We have also marked on the seating in the waiting area where our clients should be to maintain an acceptable distance from each other. And lastly, we have increased our outdoor seating for those who prefer to wait outside.
- Each chore that we do is being double-checked by a different employee to ensure that everything in the studio is as clean as possible. We have also added many new cleaning procedures including cleaning the bathrooms at least 5 times per day, single-use pens, and disinfecting the credit card machine after each client.
- We have 8 air filters running throughout the studio all day, every day!
- We have temporarily removed unnecessary items from our lobby. This includes candy, matchbooks, business cards, flyers/posters, artist portfolios, and even our coffee tables. We have also temporarily stopped providing water from our water cooler and have emptied our fridge of kombucha. We can't wait to have Bob's kombucha back!
- We are requesting that our clients wear masks (all of our employees are).
- Also, we have a new UV phone cleaner for you to use their phone in the studio. Otherwise, we are kindly asking that you refrain from touching your phone.
- Upon entering the studio, we are performing a 10 question health assessment and optional temperature check (with a hands-free thermometer) to make sure that everyone is in peak health. We are also providing hand sanitizer for everyone! At the end of the questionnaire, we will give you a sticker to let our staff and other clients know that you have gone through the screening process and are ready for your appointment!
- And, we have more than DOUBLED the number of people on our scheduling team in order to get everyone in as quickly as possible. (Thank you all for your patience in this area!)

Have any questions or suggestions for improvements? Message us and we will be happy to assist!

## Happy Birthday!

- March 7 - Ravyn Markham
- March 14 - Tabbie Tirey
- March 16 - Liz Fishman
- March 18 - Biz Matos
- March 28 - Ali Galbraith
- April 1 - Paul Schissler
- April 16 - Zane Holzapfel
- April 18 - Jessica Smith
- April 20 - Canada Charron
- April 28 - Daisy Turnmire
- April 30 - Jeremy Baas
- May 24 - Sachi Berry

Please visit these two AMAZING businesses that take superb care of us!

Thank you!

maxliving | ALIGN YOUR HEALTH™

Who is close to you... But far from health?

At Lane Avenue Chiropractic, you can expect highly trained doctors and staff who have one goal in mind: to help you and your family reach and maintain your health potential. While other doctors choose to limit their scope of practice to pain relief only, our goal is to detect and eliminate root causes of health problems that may be suffering from now and in the future.

Following an evaluation of your overall health, the doctor will discuss a plan for you and your family to obtain maximum wellness and will encourage you to participate in any number of challenges, events, recipe nights, advanced workshops, and more all designed to help you easily and effectively apply health and wellness principles to your life.

Expect V.I.P. treatment when you walk into our practice. We utilize a customer service model equivalent to first tier organizations to ensure that you receive the best experience each and every time, whether you are an existing patient or a new patient of our practice.
